

25 Orchard Outing Sodus Point, NY

Distance 38.5 miles

Difficulty ★ ☆ ☆

More apple trees than you will ever see in one place. That's the beauty of this tour during any season. Traveling the "Ridge" of the southern shoreline of an ancient lake is a trip into history that takes cyclists through small villages and past bountiful orchards. Heading north from the Village of Ontario, riders will pass the remains of iron ore beds before arriving at Heritage Square – a collection of restored buildings. It's then on to the Seaway Trail, a national scenic byway hugging the Lake Ontario shoreline.

Attractions:
