**Apple taste testing** is one way to learn the differences in apples including taste, texture and scent. Drive Yourself from market to market and taste the different varieties and take the "Apple Taste Test".

**THE APPLE TASTE TEST**

Three or more varieties are needed for comparison.

1. **Note flesh color:** White? Creamy? Yellow? Is the peel thin? Thick? Smooth? Leathery?
2. **Smell each apple:** Does it have a characteristic aroma? Which has the strongest aroma?
3. **Taste a slice of each variety.** Is it sweet? Tart? Sour?
4. **What about the texture?** Is it tender? Crisp? Juicy? Hard? Is the peel tender or tough?
5. **Which variety has the most flavor?** Which variety do you prefer to eat fresh? Out of hand?
